

Wifi at the speed of life.

eero Pro 7

Do it all.
Work, play,
create.

WI-FI 7

eero Pro 7 is a tri-band mesh Wi-Fi 7 system that brings next-generation speed and reliability to home and small to medium-sized business networks with high bandwidth needs.

Tech specs

- Supports wired speeds up to 4.7 Gbps and wireless speeds up to 3.9 Gbps
- Coverage up to 2,000 sq. ft. per device
- Wi-Fi standard: Wi-Fi 7
- Connectivity: Tri-band 2.4 GHz, 5 GHz, and 6 GHz
- Two auto-sensing Ethernet ports (2 x 5 GbE ports)
- Supports 200+ connected devices
- Supports multi-link operation (MLO) on enabled Wi-Fi 7 devices
- Power supply: 27W USB-C power adapter

Pro-level speed

Support for internet plans up to 5 Gbps with two auto-sensing 5 GbE ports and wireless speeds up to 3.9 Gbps handle your network's most demanding wifi needs.

Maximum Wi-Fi 7 performance

eero Pro 7 supports the Wi-Fi 7 standard, which delivers faster speeds and new features like multi-link operation (MLO).

Crowded networks, meet your match

More speed for more devices. Built for your always-on connected lifestyle with multi-gig Wi-Fi 7 speed for hundreds of devices at the same time.

eero software makes all the difference

eero's patented TrueMesh software, combined with TrueRoam and TrueChannel, proactively keeps you on the most optimal and reliable wifi connection possible.

Security that keeps you protected

Every eero comes with world-class encryption, security protocols, and ongoing security updates to help ensure your network stays safe and secure.

Gets better over time

Regular software updates bring you the latest and greatest in eero wifi while helping keep your network safe and secure.

Simple, app-controlled setup

The eero mobile app guides you through setup and device placement. eero devices automatically connect to create a wireless mesh network.
